Services.**

***State of the art* thermostat platform designed  
to promote lead generation, lower labor  
costs, and create customer loyalty.**

Presented by: **Vinny Ventura—Venco Sales**

# *A MESSAGE FROM OUR CHAPTER PRESIDENT*

As we approach the end of the year, it seems like a good time to review upcoming changes to our industry.

New York State passed a law that, effective January 1, 2026, all units using fossil fuels may not be installed in new construction of any buildings less than seven stories high. Fossil fuels include natural gas and oil. Fortunately, this law has been delayed until a lawsuit against the state is resolved.

As you should also be aware, January 1, 2026 is the effective date of the prohibition of installing complete R410A systems. You can replace the evaporator or the condenser, but not both.

I hope to see you at our December meeting. Your Board of Directors wishes you and yours a Happy *and Safe* Holiday Season .

*Drew Garda*

*President, Metropolitan NY Chapter, RSES*
